

SOLID WASTE FACILITY PERMIT		
1. Facility/Permit Number: 15-AA-0307		
2. Name and Street address of Facility: Community Recycling Lamont Compost Facility 1261 North Wheeler Ridge Road Lamont, CA 93241	3. Name and Mailing Address of Operator: Community Recycling and Resource Recovery, Inc. P. O. Box 716 Lamont, CA 93241-0716	4. Name and Mailing Address of Owner: Lamont Public Utility District 8624 Segrue Road Lamont, CA 93241

5. Specifications:

- a. Permitted Operations: ☒ Composting Facility (mixed wastes) ☐ Processing Facility
☐ Composting Facility (yard waste) ☐ Transfer Station
☐ Landfill Disposal Site ☐ Transformation Facility
☐ Material Recovery Facility ☐ Other: _____

b. Permitted Hours of Operation..

Open 24 hours a day, 7 days a week.

Closed on New Year's Day, Easter Sunday, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas.

- c. Permitted Tons per Operating Day: Total: 3,692 Tons/Day
Compost feedstocks and additives, as described 3,692 Tons/Day
in Report of Composting Site Information
Non-Hazardous - Sludge (see Section 14(a)(6) of Permit) ** Tons/Day
- d. Traffic Volume Analyzed for CEQA: Total: 150 Vehicles/Day
Incoming compost materials 150 Vehicles/Day
Outgoing compost materials 75 Vehicles/Day

e. Key Design Parameters (Detailed parameters are shown on site plans bearing LEA and CIWMB validations):

	Total	Disposal	Transfer	MRF	Composting	Transformation
Permitted Area (in acres)	190 a				120 a	
Design Capacity*					620,294 cu yds	

* Includes active and curing compost, feedstock, additives, and ground material

Upon a significant change in design or operation from that described herein, this permit is subject to revocation or suspension. The attached permit findings and conditions are integral parts of this permit and supersede the conditions of any previously issued solid waste facility permits.

6. Approval: _____ Approving Officer Signature Steve McCalley, Director Environmental Health Services Department	7. Local Enforcement Agency Name and Address: Kern County Environmental Health Services Department 2700 "M" Street, Suite 300 Bakersfield, CA 93301
8. Received by CIWMB: AUG 22 2000	9. CIWMB Concurrence Date:
10. Permit Review Due Date:	11. Permit Issued Date:

SOLID WASTE FACILITY PERMIT

12. Legal Description of Facility (attach map with RFI):

Assessor's Parcel Numbers 185-350-53 and -54; the west half of Section 25, Township 31 South, Range 28 East, MDB&M, excepting therefrom the northerly 1,750 feet of the easterly 1,300 feet, and the southerly 1,300 feet, containing 170 acres.

13. Findings:

- a. This permit is consistent with the Kern County Integrated Waste Management Plan, adopted by the California Integrated Waste Management Board (CIWMB) on February 25, 1998. This facility was approved by an amendment to the Non Disposal Facility Element on September 21, 1999, by the Kern County Board of Supervisors.
- b. This permit is consistent with standards adopted by the CIWMB, as required in Public Resources Code, Section 44010.
- c. The design and operation of the facility is in compliance with the State Minimum Standards for Solid Waste Handling and Disposal, as determined by the Local Enforcement Agency (LEA).
- d. Environmental Review Documents--Negative Declarations--have been completed and Notices of Determination have been filed with the State Clearinghouse, SCH #98121070 and #2000041058, as required in Public Resources Code, Section 21081.6.

14. Prohibitions:

- a. Unless specifically permitted or allowed under Title 14, Division 7, Chapter 3.1 of the California Code of Regulations, the facility shall not accept the following materials:
 1. Designated wastes, as defined in Title 27, Section 20210, of the California Code of Regulations
 2. Hot ashes/burning material
 3. Medical wastes, as defined in Section 117690 of the Health & Safety Code
 4. Hazardous wastes, as defined in Section 25177 of the Health & Safety Code
 5. Liquid wastes, as defined in Title 23, Chapter 15, Section 2601 of the California Code of Regulations (unless approved by Regional Water Quality Control Board and the LEA)
 6. Biosolids, excluding oxidation pond sewage sludge which is generated by the Lamont Public Utilities District waste water treatment plant
- b. The permittee is additionally prohibited from the following items:
 1. Scavenging
 2. Discharge of wastes off site
 3. Vector propagation or harborage
 4. Salvaging of cosmetics, food, beverages, or any materials capable of impairing health
 5. Sale or other release of unfinished compost
 6. Open burning in composting area
 7. Eating or smoking within composting and processing areas
 8. Anaerobic biological degradation of sufficient nuisance odors or to adversely affect aerobic windrow composting

15. The following documents also describe and/or restrict the operation and use of this facility:

Report of Composting Site Information	July 14, 2000
Land Use Permits:	
CUP 27, Map 143, Modification	March 11, 1999
CUP 27, Map 143, Modification	May 25, 2000
CUP 27, Map 143	July 8, 1993
Negative Declaration, SCH #98121070	March 11, 1999
Negative Declaration, SCH #2000041058	May 25, 2000

In addition to this permit, the facility may have one or more of the following permits or restrictions on its operation. Persons seeking information regarding these items should contact the appropriate regulatory agency.

Waste Discharge Requirements	California Regional Water Quality Control Board, Central Valley Region
Air Pollution Permits and Variances	San Joaquin Valley Unified Air Pollution Control District
Fire Protection District Findings	Kern County Fire Department

Facility/Permit Number:

15-AA-0307

SOLID WASTE FACILITY PERMIT

16. Self-Monitoring:

Results of all self-monitoring programs will be reported to the Kern County Environmental Health Services Department in a *format approved by the Local Enforcement Agency*. Notice via telephone must be followed with written information.

Within 24 Hours

- A. Maintain a daily log and notify the LEA in the event of any of the following: fire, earthquake damage, excessive odors off site, explosions, accidents, injury and property damage, receipt or rejection of unpermitted wastes, flooding, and other unusual occurrences.
- B. Maintain a written record and notify the LEA of any nuisance, public health, or safety complaint.

Within 30 Calendar Days

- A. Submit a report of actions taken by the operator to remedy or correct any unusual occurrence recorded in the daily log.
- B. Submit a report for compliance with Sampling Requirements, as specified in 14 CCR, Section 17868.1(a).
- C. Submit a report for compliance with the Pathogen Reduction Requirements, as specified in 14 CCR, Section 17868.3(b)(3).
- D. Submit a report for compliance with the General Record Keeping Requirements, as specified in 14 CCR, Section 17869(d).

Annually by April 1 for the Prior Calendar Year

- A. Submit a summary of the quantity and types of feedstocks received for composting.
- B. Submit a summary, by month, of the number and type of vehicles utilizing the site.
- C. Summary of special occurrences log and complaints by type of incident.

SOLID WASTE FACILITY PERMIT

17. LEA Conditions

1. This facility shall be operated in compliance with federal, state, and local requirements and enactments, including mitigation measures given in any certified applicable document filed pursuant to Public Resources Code, Section 21081.6.
2. Facility operations shall conform to the Report of Composting Site Information and future approved revisions, notwithstanding the conditions and reporting requirements of the permit.
3. The operator shall file an amendment to the Report of Composting Site Information with the LEA at least 150 days prior to making any significant change to the design or operation of the facility.
4. The operator shall maintain a copy of the Solid Waste Facility Permit (SWFP) on premises, so as to be available at all times to facility personnel and the LEA.
5. Site access shall be granted for the purpose of inspection without prior notification by the LEA.
6. Feedstock, windrows, curing piles, and finished compost shall be maintained to prevent attraction or harborage of flies, rats, or other vermin.
7. All stockpiles or windrows shall be turned as frequently as necessary to prevent anaerobic decomposition and attendant unpleasant odors.
8. Fugitive litter shall be collected and disposed of daily.
9. The operator shall cease compost screening and turning operations when weather conditions favor the transmission of off-site nuisance odors. Weather-induced operational changes shall be recorded in the daily log of special occurrences.
10. The maximum height of feedstock materials, curing compost, and oversize compost material is 20 feet. The maximum height of stabilized or finished compost is 15 feet.
11. Compost feedstock and finished product shall not remain on site for longer than one year.
12. Reclaimed waste water shall not be applied to compost after the pathogen reduction period.
13. The total capacity of the screening and finished compost storage area is 363,000 cubic yards.
14. Dust control measures shall be used to adequately reduce the effects of wind, traffic, and compost processing at the facility.
15. A facility employee shall be present when incoming shipments of compost feedstock and additive materials are received.
16. Trucks shall be washed down or otherwise cleaned before leaving the facility to prevent tracking of mud or waste onto public roads.
17. The LEA, through this SWFP, may prohibit or condition the receipt, handling, and composting of solid waste as a result of an emergency, a potential health hazard, or the creation of a nuisance to protect public health, safety, and the environment.
